Module Installationguide

0. Requirements:

- * Prestashop >= 1.4.4.0
- * PHP >= 5
- * cURL (<http://www.php.net/curl>)
- * DOM (<http://www.php.net/dom>)

1. Extract the archiv and copy the folder 'modules/mpay24' into the folder 'modules' and merge the folder 'mails' with the 'mails'-folder in your prestashop root directory.
2. Log into the backend of the shop and navigate to Modules->Payments&Gateways.
3. Here you should be able to see the mPAY24 module.

Shipping & Logistics			11 modules
Payments & Gateways			13 modules
<input type="checkbox"/>	 Authorize.net AIM (Advanced Integration Method) v1.0 by PrestaShop Receive payment with Authorize.net	✗	Install

your server is behind a proxy you must set these settings too. Save your settings!

- With the 'Save' button will be create a connection with mPAY24, so in case all the settings are right you should see a list of the payment systems that are active for your merchant id by mPAY24. You can activate or deactivate some of the payment systems, set whether the end customer should be able to type the billing address on the pay page from mPAY24 or not (this feature is working only after accord with mPAY24). You are also able to set a lot of design settings for the mPAY24 pay page. After you are done with the setting click the button 'Save settings'.
